Reignite the embers in your team for continuing their Scrum journey by tackling challenges with their work deliverables.

Many Scrum teams experience initial overwhelming confusion upon starting Scrum. After some time, early challenges are overcome with some quick wins and the team settles into a new normal. However, this also frequently means stalled progress with experimentation and achieving the next set of benefits. This intermediate course is designed for teams with some Agile experience seeking to accelerate their skills and expand capacity. The training is tailored to include the team's work materials.
