CUSTOMIZATION

All Ignite Insight + Innovation courses can be slightly customized at an additional cost.

Ignite the potential in your team by learning how Agile with the Kanban framework can enable adaptive and responsive delivery.

Learn how to work together as a self-organizing team to deliver the highest value in the shortest period of time while maintaining high quality results. Teams that learn how to effectively collaborate and optimize work in progress can deliver responsive value together. This course is crafted to introduce entire delivery teams to the fundamentals of the Agile mindset and the Kanban framework.

TOPICS COVERED

Why teams should consider being Agile

- ◇ Compare what previously worked to challenges teams face today
- ◇ Explore the difference is between being a group, team, or a high-performing team

What is the history and state of Agile and Kanban

- ◇ Explain the Agile mindset and manifesto
- ◇ Apply Agile & Lean values and principles to delivery teams
- ◇ Experience the Kanban framework: values, principles and practices

How key concepts of Agile and Kanban impact collaboration

- ◇ Examine common Agile transition problems such as team structures, alignment, multi-tasking, and results.
- ◇ Lean principles and Kanban values support collaboration and performance
- ◇ Challenge existing norms on the value of expertise and silos within delivery teams
- ◇ Determine the next steps in the team's Kanban journey
