CUSTOMIZATION

All Ignite Insight + Innovation courses can be slightly customized at an additional cost.

Learn how to work together as a self-organizing team to deliver the highest value in the shortest period of time while maintaining high quality results. Organizations that learn how to effectively collaborate within teams and between teams can deliver incredible value together. This course is crafted to introduce entire delivery teams to the fundamentals of the Agile mindset and Scrum framework.

TOPICS COVERED

Why teams should consider being Agile

- ◇ Compare what previously worked to challenges teams face today
- ◇ Explore the difference is between being a group, team, or a high performing team

What is the history and state of Agile and Scrum

- ◇ Explain the Agile mindset and manifesto
- ◇ Apply Agile values and principles to delivery teams
- ◇ Experience the Scrum framework: events, roles and artifacts

How key concepts of Agile with Scrum impact collaboration

- ◇ Examine common Agile transition problems such as team structures, alignment, multi-tasking, and results.
- ◇ Practice basic communication and collaboration techniques
- ◇ Challenge existing norms on the value of expertise and silos within delivery teams
- ◇ Determine the next steps in the team's Scrum journey
