

CERTIFIED SCRUMMASTER®

Ignite your team's potential with the Agile mindset and the Scrum framework to enable teams to discover valuable results.

DESIGNED FOR

New & Practicing Agilists:
ScrumMasters
Team Leads
Agile Team Members
Project Managers
Managers

Scrum is a popular Agile framework for developing complex products and advancing business agility within any organization. Too often, organizations determine an Agile transformation is critical without a solid understanding of what embracing Agility will mean within teams and organizations. This course provides the history, foundation and basic practical applications behind Agile and the Scrum Framework from the ScrumMaster perspective.

LOGISTICS

Interactive 2-day Course
Onsite or Virtual
14 PDUs
14 SEUs

TOPICS COVERED

Why Agile & Scrum

- ◇ Compare what previously worked to challenges organizations face today to understand why Agile makes a difference
- ◇ Explain the Agile mindset and manifesto
- ◇ Examine why Scrum is an empirical framework focused on discovering value in complex situations

CERTIFICATE

Course completion will prepare attendees to pass a Scrum Alliance exam for a Certified ScrumMaster (CSM) certification.

What is the Scrum Framework

- ◇ Analyze the Scrum Guide rules and practical tips for the Scrum Framework: values, roles, events and artifacts
- ◇ Experience the Scrum Framework: values, roles, events and artifacts

CUSTOMIZATION

All Ignite Insight + Innovation courses can be slightly customized at an additional cost.

How to lead a Scrum team

- ◇ Explain the difference of a self-organizing vs self-managing team
- ◇ Introduction to skills required to be a successful ScrumMaster in leading the team from a place of influence not power
- ◇ Dissect how the ScrumMaster contributes value to the team
